## **PRAY**

- For our current 4 micro church groups that are meeting in the city during the week, their team leaders, and core teams.
- For our Telugu group specifically that they would grow in their deep understanding of Scripture, develop a missional worldview for their community and neighbors, and live continually on mission to reach others with the gospel.
- That we would see more people groups reached in the Westpark Apartments through micro churches and Discovery Bible Studies.
- That we would encounter more persons of peace that would open the door to start missional gospel communities.
