PRAY

- For our church that we will continue to reach people in our community and that people will be saved.
- For us as we continue to look for opportunities for multiplication: in services, small groups, and discipleship.
- That we would be a church that reaches the next generation.

SERVE

- At the Summit Church we believe prayer is foundational, not a side room. We would love for you to be praying for our church & our leaders as we go about the tough work of planting.
- Another way you can partner with us is financially which would help us provide more things for our next generation ministries and local outreach in our community.
